Education

2013 **Ph.D Cognitive Science**, *University of Padova, Italy.*
Supervisor: Marco Zorzi

2009 **M.Sc. Cognitive Neuroscience**, *University of Padova, Italy.*

2007 **B.Sc. Psychology**, *University of Padova, Italy.*

Academic positions

2020–present **Department of Psychology**, *University of Essex, UK.*
Lecturer

2019–2020 **Department of Biological and Experimental Psychology**, *Queen Mary, University of London, UK.*
Postdoc. Advisor: Isabelle Mareschal

2017–2018 **Centre for Applied Vision Research**, *City, University of London, UK.*
Research Fellow. Advisors: Michael J. Morgan and Joshua A. Solomon

2013–2017 **Laboratoire Psychologie de la Perception**, *Université Paris Descartes & CNRS, France.*
Postdoc. Advisors: Patrick Cavanagh, Andrei Gorea

Publications

Journal articles

Lisi, M., Mongillo, G., Milne, G., Dekker, T., and Gorea, A. (2020) Discrete confidence levels revealed by sequential decisions. *Nature Human Behaviour*, `https://doi.org/10.1038/s41562-020-00953-1`.

Lisi, M. (2020) Uncertainty and spatial updating in posterior parietal cortex. *Cortex*, 130:441-443.

Dekker, T., and **Lisi, M.** (2020) Sensory development: integration develops before calibration. *Current Biology*, 30(9):PR409–R412.

Maus, G. W., Goh, H. L., and **Lisi, M.** (2020) Perceiving Locations of Moving Objects Across Eyeblinks . *Psychological Science*, 31(9):1117–1128.

Lisi, M., Solomon, J. A., and Morgan, M. M. (2019) Gain control of saccadic eye movements is probabilistic. *Proceedings of the National Academy of Sciences of the United States of America*, 116(32): 16137-16142.

Haladjian, H. H., **Lisi, M.**, and Cavanagh, P. (2018). Motion and position shifts induced by the double-drift stimulus are unaffected by attentional load. *Attention, Perception, & Psychophysics*, 80(4):884–893.

Bonato*, M., **Lisi*, M.**, Pegoraro, S., and Pourtois, G. (2018). Cue-target contingencies modulate voluntary orienting of spatial attention: dissociable effects for speed and accuracy. *Psychological Research*, 82(2):272–283. * *equal contribution.*

Massendari, D., **Lisi, M.**, Collins, T., and Cavanagh, P. (2018). Memory-guided saccades show effect of a perceptual illusion whereas visually guided saccades do not. *Journal of Neurophysiology*, 119(1):62–72.

Maus, G. W., Duyck, M., **Lisi, M.**, Collins, T., Whitney, D., and Cavanagh, P. (2017). Target Displacements during Eye Blinks Trigger Automatic Recalibration of Gaze Direction. *Current Biology*, 27(3):445–450.

Teaching and mentoring

2020 **Statistics for psychologists (2nd Year) - PS212**, Department of Psychology, University of Essex.
Multiple regression and logistic regression.

2020 **The science of uncertainty - PS509** , Department of Psychology, University of Essex.
3rd year BSc module on Bayesian statistic (using R and Stan).

2019 **Tutorial course on multilevel modelling**, 22 May, UCL Institute of Ophthalmology, London.

2018 **Multilevel modeling: frequentist and Bayesian approaches**, Invited tutorial at the conference GDR Vision 2018, 4-5 October, Paris, France.
Course materials: `https://mlisi.xyz/#misc`

2015 **Linear & generalized linear multilevel models in R**, Université Paris Descartes.
Statistical classes on hierarchical models for graduate and post-graduate students.

2011–2012 **Artificial Intelligence**, University of Padua.
I co-organized practical workshops where students could get hands-on experience in training and simulating neural network models.

Student supervisions

– I supervised numerous (>15) undergraduate internships, student research projects (both BSc and MSc level) in Padua, Paris, London and Essex.

Grant and Awards

2017 Research Fellowship from von Humboldt Foundation (≈ 200K€). Title of the proposal: *Confidence in perceptual decision-making: testing the Bayesian hypothesis.*

2016 National French qualification for the position of *Maître de Conférencé* (equivalent to assistant professor), section 69, Neuroscience.

2011 Student Award (200€) at Rovereto Attention Workshop (RAW), Rovereto, Italy.

2011 Selected and funded (McDonnell Foundation) for participating at the Visceral Mind Summer School 2011 (course director: Bob Rafal), Bangor, UK.

2010 Scholarship from the Italian Ministry of Education to pursue a PhD.

Invited talks and research visits

2020 *Probing confidence with sequential decisions* Talk presented at the Département d'Ãľtudes cognitives, École normale supérieure, Paris, France.

2019 *Time constancy in human perception* Talk presented at the Workshop in honor of Andrei Gorea, at the Université Paris Descartes, Paris, France.

2017 *Visual location in perception and action* Talk presented at the CerCo (Centre de Recherche Cerveau & Cognition), CNRS UMR 5549, Tolouse, France. Invited by Jean Michel-Hupé.

2016 *Object localization in perception and action* Talk presented at the Justus Liebig University, Giessen, Germany. Invited by Karl Gegenfurtner.

2016 *Perceptual constancy in interval timing* Talk presented at the Laboratoire des École Normale Superieure, Paris France. Invited by Pascal Mamassian.

July 2014 Visiting researcher at the INVIBE (Inference in Visual Behavior) team of the Institute de Neurosciences de la Timone (Marseille, France). Invited by Laurent Goffart.

2012 *Paying attention across eye movements: A computational investigation of the premotor theory of spatial attention* Talk presented at the Laboratoire Psychologie de la Perception, Paris France. Invited by Patrick Cavanagh.

Service

2016-2017 Organizer of the Perception Club meetings at the Laboratoire Psychologie de la Perception, Université Paris Descartes.

2014 Co-organized with Patrick Cavanagh two one-week workshops at the Université Paris Descartes, each involving one main invited lab plus additional international visitors.

- *ERC Berkeley workshop* (October), with participation of David Whitney's lab from University of California, Berkeley.
- *Real Time Rolling Experimental Workshop* (January-February) with participation of Rich Krauszlis' lab from the National Eye Institue (Bethesda, Maryland).

2011-2012 Elected representative of PhD students (2011-2012) at the Department of General Psychology, University of Padua.

Reviewing Ad-hoc reviewer for *Nature Communications Biology, Cortex, Current Biology, Sensors, PLOS One, Journal of Neurophysiology, Biological Psychology, Journal of Vision, Vision, i-Perception, Attention, Perception & Psychophysics, Cognitive, Affective, & Behavioral Neuroscience, Frontiers in Neuroscience, Neuroimage.*

Affiliations Vision Science Society (VSS), Applied Vision Association (AVA).

Pro bono Volunteer data scientist at DataKind UK, a charity that helps other charities in using their data to operate more effectively.

Skills

Languages Italian (native), English, French.

Courses/ certificates French, CEFRL B2 certification obtained in 2015; Summer School in Cognitive Neurodynamics, CINN, University of Reading, UK , 2010; Visceral Mind Summer School, Bangor University, UK, 2011; Tobii Eye-tracking methodology course, Katholieke Universiteit Leuven, Belgium, 2012.

Coding	R, Matlab, Stan, Markdown, LaTeX, Bash, html/css, C (basic).
Research methods	Psychophysics, Computer-based behavioral testing, eye-tracking, computational modelling (probabilistic models of decision-making; neural network models), pupillometry, basic experience with EEG.
Data analysis	Extensive experience with linear, generalized linear, multivariate and multilevel models, Bayesian statistics, Monte Carlo methods, Generalized additive models (GAM), Circular statistics. Extensive experience with psychophysical modelling; e.g. maximum likelihood conjoint measurements (MLCM), maximum likelihood difference scaling (MLDS).
Miscellanous	Experience with Unix/Linux environments; graphics and video editing with Inkscape, Gimp, Adobe Photoshop, OBS Studio, Adobe Premiere.
